Research which may be instrumental in learning more about the causes of cancer will be undertaken at the University of Maine through a \$30,000 grant from the National Science Foundation. The grant is for a period of two years and is to discover the changes that take place in cells during the growth and development of new organisms and to add knowledge of what happens to cell growth when various agents act upon it.

NEW FACULTY MEMBERS AT TELSTAR—Pictured above are instructors who are new to the staff at Telstar Regional High School this year. Seated (left to right), Mrs. Sally J. Curtis, instructor of Fine Arts; Mrs. Joan Brooks, instructor of Special Education; and Miss Lynne Perket, instructor of girls' physical education. Standing (left to right): James Fiske, instructor of English; Craig Davis, instructor of English; Richard Prescott, instructor of business subjects; and Charles P. Taylor, instructor of French and German.

The first S. A. D. 44 Faculty Club meeting of the year will take place Monday evening, Sept. 15, at 7 o'clock in the auditorium at Telstar Regional High School.

The meeting will be opened by Peter J. Brown, vice president of the Club. Mrs. Jacqueline Stebbins, secretary, will report on the May 1969 meeting. The treasurer's report will be given by Nicholas Clements.

New business will include approval or recommendation of the committees and chairman for 1969. John R. Applin, chairman of the Finance Committee, will offer remarks on the May Salary Clinic held at Waterville. Mrs. Elizabeth Lord, chairman of the Revision of the Faculty Club Constitution will offer remarks also. Mr. Brown is slated to make comments in reference to teachers selecting the committees they wish to serve on prior to Sept. 15 and making their intentions known to committee chairman.

Committee workshops sponsored by the Maine State Teachers' Association are: President's Leadership Conference at Waterville, Sept. 19-20; Mr. Brown's Salary Conference at Waterville, Sept. 26-27; Mr. Applin's Professional Rights and Responsibilities, David Tripp.

Faculty Club members will be offered an opportunity to present items before the meeting. Ralph K. Ryder, superintendent, will introduce faculty members (by schools).

It is expected that the business meeting will adjourn at about 8 o'clock, and the public is invited to hear the speaker of the evening, David W. Bustin, assistant executive secretary of the Maine Teachers' Association. Mr. Bustin will speak on "The Value and Needs of a Chosen Working Relationship and Better Public Relations Between Teacher Organizations, School Boards, and Committees."

There is no intent whatever on my part to claim that Mrs. Morgan is an expert in all these sciences or indeed in any of them. However, during the time that I have been reading her column she has shown an intelligent and observant interest in the varied subject matter of all of them. She knows her way amidst fields, woods, mountains, lakes, streams and focal points of extraordinary charm, beauty and interest in the greater Bethel area. I can think of no course in informal adult education that would be more rewarding than a course on the natural beauties of one's environment. In my opinion Mrs. Morgan is well qualified to conduct such a course interestingly and intelligently. Incidentally speaking, a compilation of her columns in your newspaper between the covers of a book would be an excellent resource material for nature study in the Bethel schools. Isn't it high time that the young Bethel children at least be given the benefit of her daily observations of nature that she so well sets forth in her weekly column?

There is one other facet of the adult education program in SAD 44 that puzzles me. Apparently the formal part of the program is limited to those who seek a high school diploma. What about those citizens of the Bethel community who failed to achieve an 8th grade or elementary school diploma. There must be a significant number of them in Bethel as there are in every community in the United States. Perhaps the educational mantle of the prospective program could be spread to meet their needs.

Sincerely yours
Mark E. Cymant

THE BIBLE SPEAKS TO YOU

Letters to the Editor

September 8, 1969
To The Editor, Bethel Citizen,
The Bethel Citizen issue of September 4 contains a list of courses in adult education that is being offered by S. A. D. 44 for the ensuing school year. Apparently the courses are being offered on a formal basis for those who wish to complete their high school education and achieve a diploma and on an informal basis for those who wish to broaden their interests or improve "themselves" by learning skills in areas that are of interest to them . . . "My personal interest in the matter stems from the fact that for more than twenty years I taught two courses—"Principles of Adult Education" and Teaching English as a Second Language" in the Graduate School of The City University in New York City. Accordingly my interest is real and abiding in adult education.

I should like to suggest a course to be added to the informal part of the program to be based on "The Greater Bethel Environment." For the instructor I enthusiastically and unhesitatingly suggest Mrs. Colista Morgan of Greenwood City. Her weekly column in your newspaper continues to intrigue me. Her writing improves as time marches on. The range of her observations is truly amazing. She seems to be reasonably well informed in the fields of botany, horticulture, entomology, zoology, ornithology, astronomy and her last column in your paper clearly showed an interest in paleontology.

There is no intent whatever on my part to claim that Mrs. Morgan is an expert in all these sciences or indeed in any of them. CANHAM KATES MUSKIE AS OUTSTANDING LEADER IN TALK BEFORE BANKERS

The editor-in-chief of the Christian Science Monitor, Erwin D. Canham, said Saturday that Sen. Edmund S. Muskie appears to be the outstanding leader of the Democratic party now.

Speaking at the 76th annual convention of the Savings Bank Association of Maine at The Balsams, Dixville Notch, N. H., Canham said Muskie may face some opposition from former Vice President Hubert H. Humphrey for the leadership position in the party and there may be "a bit of a hassle" between the two.

However, Canham said the Democratic party nationally is "in sort of shambles" because of the Sen. Edward Kennedy affair—"a sad episode in America's history."

Editor Canham, an Auburn native, feels the Kennedy forces would "have come out with a better story

already if they had a better story" about the death of Mary Jo Rachechne.

New president of the association is Avon F. Pulcifer, Farmington, president of the Franklin County Savings Bank. Other officers elected were A. Roger C. Lambert, president, Portland Savings Bank, vice president; Elton D. Powers, treasurer, Skowhegan Savings Bank, secretary; and S. Preston Moses, vice president, Maine Savings Bank, Portland, treasurer.

Elected to the executive committee were Albert L. Moore, treasurer, Waterville Savings Bank; William D. Deans, vice president and treasurer, Saco and Biddeford Savings Institution; Edmon J. Vachon, treasurer, Bethel Savings Bank; Eugene A. St. Pierre, treasurer and secretary, People Savings Bank, Lewiston; and Robert B. Davis, treasurer, Gardiner Savings Institution.

Roger B. Percival, vice president and treasurer, Portland Savings Bank, was elected a trustee of the association trust.

In his report, outgoing president F. Burton Whitman, Jr., treasurer of Brunswick Savings Institution, called on savings banks and other financial institutions in Maine to do more on the student loan program.

Whitman noted that Maine is last among the state in the percentage of high school students seeking higher education. "Correction of this shame should have very high priority in the future planning of our savings banks."

State Travel Director Robert O. Elliott said this is indicated by results of spot checking through chambers of commerce in the State's resort areas.

He emphasized that "More accurate estimates of tourism income can be made when comparison figures for tax revenues, license sales, fees and tolls are compiled."

"As of September 1," he said, "we are equalling travel income, from all sources, up to the same date last year."

Last year's figures indicated that three million, six hundred thousand vacationers came into Maine, with the gross tourist business estimated at four hundred million dollars.

"Some chambers of commerce believe revenues will climb 10 per cent above 1968—none that we have checked thinks business overall will come out behind last year," Elliott said.

Business reportedly is down at some spots where inclement weather hit at times, while others with a better break report business is up.

"We think, of course, in terms of total State-wide statistics that include housing, from camping to deluxe inns, meals, from casual lunches to lobster dinners, services of all kinds, costs of transportation and retail sales volume in Maine stores. Tourism affects all Maine residents, directly or indirectly."

Elliott opined that a "little change in resort" operations could convert Maine's multi-million-dollar tourist business into a year-round activity.

"Most resorts close down in early September when they should be geared-up for this time," he said.

GUIDANCE DEPARTMENT

On Monday evening the Guidance Office received a most lovely floral bouquet from that wonderful thoughtful Guidance Director, Mr. Frank H. Glazier, who, as you all know, is a patient at Rumford Community Hospital in Rumford, Maine 04276 (Room 356). He gave each of the Guidance Personnel the following tribute:

To: Mrs. Frank Glazier who has done the errands and leg work in Guidance since Aug. 12, 1969.

To: Mr. David Denison and Mrs. Priscilla Hotte, Counselors, for nobly accepting much of my assignments.

To: Mrs. Louise Seames who worked as Guidance Secretary until Aug. 15 and gave so much attention to her duties.

To: Jerrold A. Gibbs who so ably assisted me this past summer and whose company I enjoyed so much.

To: Mrs. Irene P. Stevens, who has had so many problems to approach in Guidance and has done her work so well.

I'm thinking of you all daily, — Frank Glazier, Rumford Hospital.

Homework Guide

1. Definition

Homework in or out of school is your major assignment which is to be prepared or completed outside of class. As we start our second week of school, begin preparation NOW.

2. Purpose of Homework

Homework should stimulate the intellectual development of the child and create and broaden desirable interest and habits. It should reinforce the pupil's mastery of skills, expand his fund of worthwhile knowledge, encourage creative use of his abilities and increase his appreciation of the world in which he lives. Homework should be an outgrowth and extension of meaningful classroom activities and helps the student to learn how to study.

3. Role of the Teacher

The teacher should provide help in developing good study skills, provide for individual differences and abilities, and make certain that homework assignments are purposeful, clear, and have real meaning for the pupil. Homework should be explained in class to enable pupils to ask questions and to have any initial assistance.

4. Role of the Pupil—HOMEWORK

Students should expect an average of 15 to 20 hours of homework per week. Students should take advantage of their unstructured time to begin working on their assignments. A given period of time should be set aside daily at home to complete assignments. Study areas are provided throughout the building. The library and a supervised study hall will be available for student use during the day.

5. Grades 7-12

Contact the Guidance Office for "A Home Study Guidance Guide" that has been very helpful to many pupils at Telstar in the past. Contact the Secretary, Mrs. Stevens. Good luck to you.

6. Role of the Parent

The parent should try to provide a home atmosphere, with proper facilities, that is conducive to good study. The parent should encourage the child to study and to complete the homework assignments. Parents should give only that kind of assistance and guidance which will enable the child to think for himself in completing his own homework assignments. There should be a mutual understanding of purpose between home and school.

CLIP N' SAVE

2 YEAR TRACK WARRANTY

A two year warranty against track separation applies to all 1970 single cylinder MOTO-SKI models. Standard warranty applies to 438, 500 and 634 cc models.

"Story of Moto-Ski's Exclusive Track"

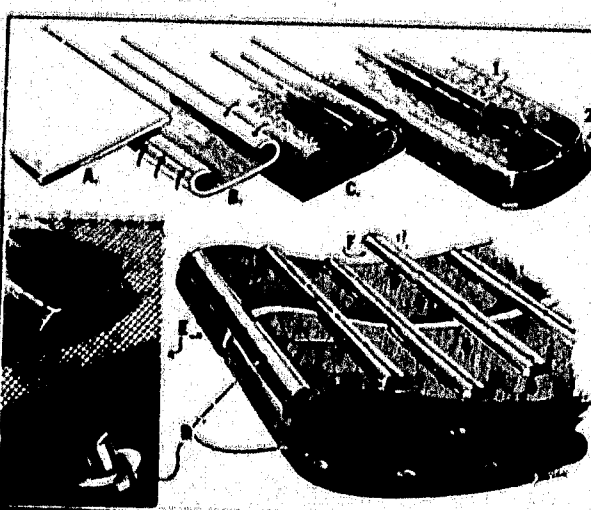

Every MOTO-SKI built features our exclusive and unique Rubberized Steel Cleated Track.

What's so special about this track? Take the cleat itself. We start with a slab of flat steel (A). First, we put a very exacting curl to the metal's edge (B); then, each cleat is carefully hand-dipped in molten rubber and molded. Note how the curled edge allows the steel to become completely encased (C). Final shaping of each cleat gives this track its prime characteristics: (1) the traction rib for hard-packed or crusty snow (2) the beveled edge for superior performance in deep, soft snow.

Damage to ordinary, molded tracks, without cleats, requires total track replacement (at about a hundred bucks!).

On the MOTO-SKI track, individually mounted cleats can be quickly and inexpensively replaced (F). Each is secured with a half-dozen, tubular steel rivets (D) at intervals of about every three inches. The 3-ply belt (E) is constructed of the highest quality rubber and nylon and is designed with a roughly textured outer surface (greater traction) and a smooth inner finish (less friction). Its non-molded construction creates far greater flexibility at lowest temperatures... providing maximum conformability to all type terrains. When you invest in a snowmobile, you have a right to expect that it will go where snowmobiles are supposed to go. With its exclusive track, MOTO-SKI meets this responsibility. The results: a superior performance on ice, crust, snow, deep snow and deep, deep snow.

The standard MOTO-SKI track width is 15". The big wide track measures 18" across.

\$200,000 LOSS AS FIRE GUTS

BRIDGTON ACADEMY BUILDING

Fire starting in the kitchen of Ingalls Hall, Bridgton Academy, about 9:30 Monday morning, September 8, gutted the building. Aside from the kitchen the building contained the dining room, the library, three classrooms and the infirmary that was located on the second floor. Chairs and tables were saved and many books from the library were removed by students. Contents of the infirmary were lost as were belongings of the nurse, Mrs. Margaret Libby.

Headmaster Richard Goldsmith estimated the loss at \$200,000. Ingalls Hall was dedicated in 1892. The Academy is in the process of purchasing the adjoining Wyonegonic Inn property and it is believed they will use the dining room, kitchen and possibly two or three classrooms in the building to relieve the situation.
